# Tanner Weir

**FRONTEND DEVELOPER**

---

## EXPERIENCE

**FREELANCE WEB DEVELOPER**
Dec 2021 - Present

Collaborated closely with clients to develop visually stunning and user-centric websites, ensuring seamless integration of applications, graphics, audio, and video clips.

Utilized prototypes and test driven development to maximize ease of use, speed, and quality factors. Prompt product management to maintain optimal website performance, eliminating any issues or bugs.

## PROJECTS

**REDDITZERO** LIMITED REDDIT API APPLICATION

Designed and developed a dynamic web application leveraging Reddit's JSON API, providing users access to current popular Reddit topics. Utilized HTML, CSS, and JavaScript alongside the React.js framework to create a custom design, enhancing the user experience, and demonstrating proficiency in front-end technologies.

**LUMINARY BAY FARMS** COMPANY WEBSITE

Developed a responsive single-page application using React.js, showcasing the company's offerings through multiple sections. Integrated a database to dynamically generate and display product listings, enhancing user engagement. Demonstrated expertise in React.js, front-end development, CI/CD, and creative UX/UI design in delivering a compelling online presence for the company.

## EDUCATION

**FRONT END ENGINEER** CODECADEMY CERTIFICATION
Mar 2023

Comprehensive understanding of Front-End Technologies, Version Control, Web Design, Build Tools, Data Structures, and Algorithms.

**FULL STACK ENGINEER** CODECADEMY CERTIFICATION
In Progress

Gaining insights into back-end technologies including Node.js, Express.js, SQL, and PostgreSQL to create robust website solutions.

**BACHELOR - PSYCHOLOGY** OREGON STATE UNIVERSITY
Jun 2019

Firm conceptual understanding of Business, Communication, Behavioral, Cognitive, Organizational, and Statistical Psychology.
